ORGANIZATION STRUCTURE

MANAGING DIRECTOR MESSAGE

Established in 2008, **Blue Sky Landscaping & Water Well Drilling LLC**, works with a philosophy that the quality of outdoor spaces directly influence our lives. Offering quality landscaped garden/outdoor area, combinations of hard landscaped outdoor seating areas, water features, swimming pools, plant areas, following contemporary design elements has grown from its initial involvement in Landscaping & Water Well Drilling into a diverse State of the Art and well established Company in THE UAE.

The company's policy was based from the start on customer service and attention to detail. During the past years, the company earned the respect of its customers as its projects grew from small to big, we have big names in our client list.

Our policy for the future is to widen our range of products and services to increase our market profile by setting up a centralised marketing department. We shall place even greater emphasis on customer awareness by improving our technical support, customer complaints procedure and the servicing and maintenance of our products and systems.

We shall ensure our staff members continue to undergo specialist training, enabling them to advise our customers on the latest technological developments in products and services within the industry.

With these future developments, we are confident that we shall meet the challenges of increased global competition and the advancements made in Landscaping industry.

Our commitment to provide cutting edge design and expert installation of quality gardens assure clients exceptional satisfaction.

The aim is to also provide, through a number of retail outlets that provide high quality plants, landscape and irrigation products at an affordable price to the consumers of the UAE, including unique products that have sustainable offerings.

SOFT LANDSCAPING

Softscaping is one of the most exciting, creative and interesting stages of garden improvement. The greening process is applicable to the gardens of various sizes and shapes. Fresh lawns with soft green grass, eye-pleasing flower beds with bright, beautiful flowers, beautiful lawns and ridges, spectacular and expressive hedges – all these techniques of landscape design can transform any backyard into a wonderful oasis.

If you want your garden to delight you throughout the years, we recommend you to use our services.

STAGES OF SOFTSCAPING

- * The first phase of the project is indicating the location of all green space in the garden;
- * The Second phase is the organization of watering systems, lighting and arrangement of artificial reservoirs;
- * The Third phase by a direct process for landscape gardening: settling in garden beds, lawns, Alpine gardens, rose gardens. If necessary, we create a hedge;
- * The final step is the installation of decorative sculptures and elements of landscape architecture.

Our landscaping services will transform a garden space into a wonderful place for rest and relaxation.

THE COST OF SOFTSCAPING SERVICES

The price we offer is attractive to customers with different levels of budget. The cost of softscaping of a garden site depends on the geometric dimensions of landscape of the territories, methods of garden design and the complexity of engineering systems of watering and lighting.

We are ready offer you the most interesting and original designs of backyard space regardless of its size, topography, soils and climate. Well-executed softscaping will allow you to enjoy your garden all year round, enjoying the change of colors, flowering plants and a harmonious layout at the site. We provide affordable price for our services so there will be no damage to your budget.

If you want unusual, interesting and creative designers to decorate your backyard area, call us and order softscaping services today!

HARD LANDSCAPING

The design of a garden should not be considered complete if there are no benches, arbors, fountains or sculptures there. Such orchard looks boring and impractical. The specialists of our company are ready to completely change the territory of your garden and add decorative and functional elements to it. To do this, you can buy hardscape, made in our own workshop company. Such decorative elements include:

- * Gazebos and pergolas;
- * Bridges and fountains;
- * Greenhouses and aviaries;
- * Benches, tables and other garden furniture;
- * Sculptures, lanterns, etc.

HARD LANDSCAPING

We manufacture hardscape from a variety of materials: wood, plastic, brick, metal, stone, etc. the Choice is yours; we will advise you on what is suitable for a particular style in landscape design. Wooden decorative elements are perfectly combined with any vegetation and perfectly fill the empty space in your garden. Wrought iron arbors and benches emphasize the luxury and wealth of the family, elegantly complementing the overall architectural ensemble.

Hardscape in Dubai is very popular. In order to create a beautiful landscape in your garden we advise to choose comfortable furniture. Tables, chairs and awnings can be either stationary or portable. With a gazebo equipped as a summer dining room, you can invite your friends for lunch or dinner outdoors and spend time in friendly company and enjoy the fresh air and the taste of food cooked on a barbecue.

If you have kids, we can make a playground for them. Slides, swings and horizontal bars – all this can be harmoniously located in your garden and will become their favorite place. Own workshop is equipped with all necessary tools to offer our customers high-quality items for garden decor. We are ready to offer durability and reliability at affordable prices.

SWIMMING POOLS SERVICES

If summer are to long and hot than you think that it's time to tackle this problem, don't whack your brain for options? What's more enticing than a splash on your cool swimming pool? Now don't fret over the installation of your swimming pool because here we are, **Blue Sky Landscaping & Water Well Drilling LLC**, offering you world class services in Pool Installation and Maintenance. Spread across all over UAE, the company provides technical services specialised in pool maintenance and installation. Our aim is to create a strong relationship with our clients, catering to every requirement on professional long term basis. Being a company with strong financial capability, we provide superior services and imported high quality pool installation products and spare parts at very reasonable prices, enabling price comparison with any other company.

ILLUMINATION OF TREES AND SHRUBS

Ground lighting fixtures, which are mounted in the ground and illuminate an object vertically, can be used to illuminate tall trees and shrubs. If the tree has too broad crown, it is recommended to install lighting in several points around it.

LANDSCAPE MAINTENANCE

Our complete landscaping maintenance services

The **Blue Sky Landscaping & Water Well Drilling LLC**, provides the following services to commercial and residential customers:

* **Mowing:** With this landscaping maintenance service, we will mow your grass as needed seasonally. We will also trim and edge any sidewalks and obstacles and blow clippings from hard surfaces.

* **Fertilizing:** We will fertilize your lawn as requested to keep it looking its best. We can also perform any spot treatments if necessary to promote proper lawn growth.

* **Weed Care:** As part of our landscaping maintenance services, we will help minimize and control weeds in your landscaping by hand weeding and applying weed control treatments to your flower and plant beds.

* **Mulching:** With our mulching services, we will spread mulch in all of your beds and around your trees as needed for aesthetic appeal and weed control.

* **Trimming and Pruning:** With this service, we will trim and prune any shrubs, plants, and ornamental grasses to ensure good shape and plant health.

* **Irrigation Maintenance:** We will inspect your irrigation system monthly while the system is on to ensure proper coverage and function.

* **Lawn Aeration:** Aeration is an important landscaping maintenance service that will reduce soil compaction and allow fertilizers to beautify your turf.

* **Over-Seeding:** We can perform over-seeding services following aeration in order to ensure a healthy and full lawn.

* **Leaf Removal:** We will remove fallen leaves from both your landscaping beds and turf areas.

* **Spring and Fall Annual Planting:** We can plant a variety of annual flowers and plants throughout your landscape to provide color and design in any season.

* **Preparation of Annual Beds:** This service prepares beds for planting by cultivating the soil and adding necessary amendments to the soil to help with the annuals growth.

* **Removal of Annuals:** This landscaping maintenance service includes removing any dead annuals after the growing season has ended.

* **Tree and Shrub Care:** We will apply a number of treatments to your trees and shrubs in order to ensure health and prevent disease or insects.
